Overview:

Recreational equipment shall include vehicles with recreational vehicle registration plates, motor homes, van campers, motorcycle trailers, travel trailers, campers, tent trailers, boats and boat trailers, snowmobiles, aircraft and non-motorized equipment used for transporting recreational equipment.

Standards:

- Parked or stored recreational vehicles or boats shall not be used for living, sleeping, or housekeeping purposes. Additionally, no recreational vehicle shall be connected to gas, water or sanitary sewer service. Temporary electrical hookup may be permitted.
- Recreational vehicles shall not be used as accessory structures.
- Recreational vehicles shall not have their wheels removed or be affixed to the ground so as to prevent ready removal of the vehicle.
- Recreational vehicles shall not be parked or stored in such a way as to create a dangerous condition.
- No major repair shall be performed on any recreational vehicle except within a garage or an accessory, fully enclosed structure.
- Outside storage of any material adjacent to any recreational equipment shall be prohibited.

Parking and Storage Restrictions:

- Recreational equipment may be parked on private property in a garage or carport.
 - Recreational equipment may be parked on a street for a period not to exceed 48 hours during loading and unloading.
 - Any recreational equipment parked in a required front yard or side yard adjacent to a street shall be maintained in a mobile condition.
 - No recreational equipment shall be parked within 10' of any adjacent dwelling on an adjoining lot, nor shall it be parked within 1' of lot line and in any event, drainage of the lot must be maintained.
 - No recreational equipment shall be parked across public sidewalks.
 - Recreational equipment parked in front yards or side yards adjacent to a street: Recreational equipment that is licensed for road use, less than 10' 6" in height, may be parked on a driveway in a required front yard or side yard adjacent to a street and shall be placed on a permitted driveway surface (concrete, asphalt or approved brick pavers).
 - Recreational equipment parked in side yards (other than adjacent to a street) and rear yards: Recreational equipment less than ten feet, six inches (10'6") in height may be parked on crushed stone, gravel or permitted driveway surfaces (concrete, asphalt, or approved brick pavers). Recreational equipment parked in a side yard must be located further back than the front building line of the adjacent property.
 - Driving over a lawn to park/retrieve a lawfully parked and permitted trailer, boat or camper is not allowed.
-
